

CENTRAL
SOD FARMS, INC.

Sod Specification: **TAHOMA 31™**
BERMUDAGRASS

To whom it may concern,

Tahoma 31 Bermudagrass has excellent growth characteristics in the Mid-Atlantic area. It is typically installed on sports fields, golf courses, and other areas that require aggressive growth, great turf quality, and superior drought resistance. Tahoma 31 has excellent cold tolerance compared to other Bermuda grasses.

Our current cutting field's sod specifications are noted below.

Roll Size	2' x 5' (10 square feet)
Age	12-18 months
Soil Thickness	.75"
MD Certified	Yes
Seed Blend	100% Tahoma31 Bermudagrass

Please feel free to call if you have any questions or concerns.

Respectfully,

Central Sod Farms, Inc.
